

Cover letter

Ninna Svanström

Nice to meet you!

I am Ninna, a 26 year old master student at Chalmers University of technology, looking for a summerjob related to my education and my interests.. I am deeply interested in IT and human behaviour and psychology, thus why I am studying Interaction Design, and I have a bachelor degree in Cognitive Science.

I would describe myself as highly responsible, trustworthy and a friendly person. I am very easy to get to know and to get along with, and I very much enjoy to work in teams. I spend my free time either exercising, outdoors getting fresh air, playing the piano or indulging in hobbies.

I love to learn new things, so when I find time I try to learn new crafts or skills (like studying a new language, painting or learning a new instrument).

My previous work experience is mainly concering customer service, and although it isn't something that is related to my education or what I pursue, it has strengtened my work ethics and taught me a lot about working with people. My previous employees have trusted me with a lot of responsibility and I have always a very loyal colleague.

I hope I get to hear back from you.

King Regards,

Ninna
